

Holistic Vision Session

by Dr. Sam Berne

This vision session will test for binocular vision and offer a more holistic perspective to you about your vision. I will offer some recommendations to help you bring your eyes, brain, body, into better balance.

Dr. Berne can help the following:

Learning and Reading Problems in Children
Holistic Methods for Improving Eye Disease
Prescriptions That Match One's Visual System
Vision Therapy Activities To Help Improve Hard To Solve Vision Problems
Electrophotonic Imaging To Measure Major Glands, Organs, and Acupuncture Meridians

Dr. Sam Berne is an internationally-known author, researcher, and teacher who uses a multidisciplinary approach applying a diverse variety of disciplines some of which include vision therapy, biofield analysis, quantum physics, psychology, somatic continuum movement, medicinal essential oils, craniosacral therapy, dolphin-assisted therapy, and photo (light) therapy with respect to expanding human potential. He is on the faculty at The Esalen Institute and the Findhorn Foundation. Sam has written four insightful books and produced a DVD on autism. He is licensed to practice optometry in Hawaii and New Mexico. Visit his websites at: www.DrSamBerne.com or www.newattention.net
